POETRY.

Little Bess to Uncle Bill.

[Respectfully dedicated to the Scrap book of every mother in Christendom:]

Dear old Untie,
I dot our letter;
My ol' mammy
She ditten letter.
S'e sdeep ery
Little bit stronger,
Don't mean to be sick
Very much longer.
Daddy's so fat
Can't hardly stagger,
Mammy says he jinks
Too much lager!
Dear little baby
Had a bad colic,
Had to take tree drops
Nasty paregalic!
Took a doze of Tatnip,
Felt worse than ever,
Shan't take no more
Tatnip never!
Wind on stomit,
Felt pooty bad;
Worse fit of sitness
Ever I had.
Ever had belly ate,
Old Untie Bill!
'Tain't no fun now,
Say what oo will,
I used to sleep all day
And ky all night;
Don't do so now
Cause 'tain't yight!
But I'm growing,
Getting pooty fit;
Gained most two pounds,
Only tink o' yat!
Little fennin blankets
Was too big before,
Nurse can't pin me
In 'em no more,
S'kirts so small,
Baby so stout,
Had to let the pleets
In 'em all out.
Dot a head of hair
Jess as black as night,
And big boo eyes
Yat look very bright;
My mammy says
Never did see
Any oozer baby
Half as sweet as me.
Grandma comes often,
Aunt Sarah, too;
Baby loves zem,
Baby loves 'oo,
Baby sends a pooty kiss
To his Unties all,
Aunties and cousins,
Big folks and small,
Tan't yite no more,
So good bye,
Jolly old Untie
Wiz a glass eye!

ITALY.

A correspondent of the London *Evening Mail* from Venice gives some encouraging facts indicating the earnest longing for improvement among the Italian people. He says that immediately on the departure of the Austrians, in 1866, schools were opened at the public expense in all the parishes of the city. Infant schools were also started, and Sunday schools for girls who could not attend during the week. Night schools were organized for the benefit chiefly of adults, at which the most distinguished professors in Venice give gratuitous instruction, and where the progress made by mechanics is most remarkable. Libraries and reading-rooms have been established, and are well sustained by members of all the different trades and by the common soldiers. Technical schools for instruction in science and political economy, and in the commercial laws of all countries, attract large numbers of enthusiastic pupils. These movements are carried forward chiefly by the professors and by large minded men of the middle classes; the representatives of the aristocracy and of the old historic families have little interest in them.

The correspondent adds that similar progress is visible in other cities and towns in Italy, especially in the north. All this has been done in the first year of liberty. Scarcely twelve years ago, any attempt to introduce real knowledge among the people and to improve their condition would have been treated by the Austrian government as a crime. He says "there is no Italian, except the veriest poor in the Neapolitan provinces, who would not spurn the suggestion of returning to that miserable puerility and political ignominy which has reduced Italy to the condition of ignorance and degradation from which she is now surely, though slowly emerging. The choice is not now between a united Italy and a divided Italy, but between monarchy and republicanism."

Alabama.

Just as Congress was about to close its legislative business, pending the trial of the President, decisive action was taken for the relief of Alabama. It is well understood that the new constitution was lost wholly by the action of disloyal men who had not only staid away from the polls, but had used threats and intimidations of various kinds to make those who were in its favor do so likewise. In view of these charges the committee on reconstruction took much evidence as to what occurred at the election. They found that as more than 70,000 votes were given for the constitution and less than half of the registered voters had voted, the requirements of the reconstruction act had not been met. It also appeared, however, by the affidavits of a large number of witnesses, that the votes of three counties had been thrown out for informality, that in another the ballot boxes had been destroyed, and that in several others, acts of fraud or intimidation had been committed so as to diminish the number of votes, so that altogether the loss of more than the additional number of votes needed for the purpose of the reconstruction act could be directly ascertained. It was then shown that more than a majority of the people of Alabama had attempted to declare their opinion at the election, and the committee proceeded to give effect to the declaration, by reporting a bill to admit the State to representation in Congress.

A substitute was presented which instead of declaring the State entitled to representation, simply provides that the constitution voted upon in February shall be the basis of a provisional government; that under that government the legislature may submit the constitution, to the people anew, with amendments; and that when the people by a majority vote of the electors qualified and actually voting, shall have adopted the constitution and the legislature shall have ratified the last proposed amendment of the Constitution of the United States, the constitution of Alabama can be presented to Congress for its approval. The substitute was adopted in place of the bill after an earnest debate, by a vote of 77 to 54.

MINING IN CANADA.—The mineral resources of the New Dominion are rich and inexhaustible. Iron ore abounds in the hills opposite Ottawa and elsewhere; copper exists in immense quantities in many parts of the country; plumbago is being worked out very profitably by a Montreal company; lead ore exists in the same region; the gold mines of Eastern Canada yield a large return for the capital invested in them; and a slate quarry has been opened near Melbourne. Coal has not yet been found in Canada, and according to geologists it never will be found, but in place of it there are vast quantities of excellent peat along the line of the Grand Trunk railroad. *Troy Whig.*

Impeachment

Upon arriving at the door of the Senate the Chief Justice was already in his seat. The managers and members entered and took their seats as formerly. Business was at once begun, the reading of the journal being dispensed with.

Evidence for the Prosecution.

Mr. Wilson, on behalf of the Managers, resumed his duties of presenting copies of various official papers relating to the War Office imbroglio, which have heretofore made public.

Gen. Butler said they had introduced a new form in the commissions of the Treasury Department since the tenure-of-office bill, and directed the reading of a commission, such as is usually given, which the witness, Mr. Creecy, the Appointment Clerk of the Treasury Department, verified. The commission for temporary appointments and the blank bonds were also shown and sworn to.

The commission of Edwin Cooper of Tennessee as Assistant Secretary of the Treasury, dated November 20, 1867, was next shown, together with the permission to act granted December 2, 1867. The witness was then examined by Mr. Curtis, who remained sitting, and but few questions were asked, those being of an unimportant nature.

Burt Van Horn, member of Congress from New York, was next called and sworn. He was examined by Gen. Butler regarding the interview on the 22d of February between Gen. Thomas and Secretary Stanton, when the War Department was demanded by the former, which has already been published. PERLEY.

[For the Daily News.

"The Marlborough Chapel."

DEAR NEWS:—Was the Marlborough chapel built by a lottery? I have more than once met with a statement that it was, but I question it. In his journal, Bishop Asbury writes:—"We crossed Narragansett Bay on Friday and came into Newport. Grand house, steeple, pews, by lottery; the end is to sanctify the means, ah, what pliability to evil!" The good old Bishop had no fellowship with any of those things.—Will you, Messrs. Editors allow me a few words relative to this whole matter.

In 1806-7 Rev. Reuben Hubbard visited Newport as a Methodist Minister, and preached statedly on the Sabbath in the State House; the writer remembers the services, being taken there by his father who was one of the usual congregation. Mr. Hubbard was an attractive preacher, a young man, and Methodism was a novelty in the place; consequently some men of note were his hearers; among them was Capt. James Perry, a man of comparative wealth and influence, and who for some cause became quite interested in the new movement. He united with Capt. Lloyd Heath, commandant at Fort Wolcott, Benjamin Whitman, Esq., both of whom were Methodists, and with several others obtained a charter of incorporation from the Legislature. They proceeded to erect a house. Messrs. Perry and Whitman were the only ones who were responsible for the undertaking; and Mr. W., subsequently becoming insolvent, the whole burden rested finally on Capt. Perry.

Benjamin Pitman, Paul Baily and Benjamin Chace, were employed to build the house. At the commencement of the enterprize there was certainly a lottery undertaken, and some of the tickets were sold. But there are very strong reasons for believing that the lottery was given up.—Many of the tickets would have been sold in Newport, and prizes drawn there, and yet I have never heard of a single instance of it.

My father, who was one of the builders, would certainly have taken more or less of them, but not one of them was owned in the family, and while he frequently made the building, a subject of conversation, tickets or expectations from them were never once to my recollection alluded to. My father had also a large carpenter's shop near his dwelling; it was used in common by himself and Mr. Bailey, a number of employees, journeymen and apprentices; and had there been a lottery they, doubtless, would have had tickets, and would have talked about their "chances" "lucky numbers" "the high prizes" &c. Nothing of the kind in their ceaseless gabble ever passed their lips in my hearing. Further, had a lottery been drawn, it is difficult to account for the financial disaster which the building occasioned; the pews in such a house should have covered the cost, and I believe most of them were disposed of, and yet the building was spoken of as ruinous to the contractors. Many years afterwards Mr Whitman was circulating a subscription paper to obtain remuneration for the loss he suffered by his connection with it.

The venerable James Pitman Esq., of Stonington, formerly of Newport, was a lad about 17 years when the house was building. In reply to my letter upon this subject he writes "I have no recollection that the chapel was built by lottery; yours are the first suggestions of the kind I have met with.

* * * * * *

My father worked on the building and took a pew for which he allowed $50. I remember seeing a bill of sale, but from whom I have no recollection, but presume it was from Messrs. Whitman and Perry."

From all these circumstances it is safe to conclude that the Marlborough Chapel was not built with, or by the avails of a lottery.

NEW BEDFORD. B. P.

POLITICAL.—The Providence (R. I.) Republican convention yesterday nominated an Assembly ticket each one of whom is understood to be pledged to the re-election of Senator Sprague. The great contest in the election to-morrow will be on the assembly ticket, and it is understood that a prominent citizen will be brought forward as an opponent to Mr. Sprague. There is little doubt, however, of the success of the last named gentleman.—*Boston Journal.*

Vegetation is so scarce at Virginia City, that two mullein stalks and a bunch of thistles are called a grove.

About Home.

THE CHILDREN'S HOME.—The occupants of the Children's Home are removing to their new location on School street and will take possession of their improved premises at once. Their old quarters have long been too limited, and we congratulate the managers and all concerned on being able to make so desirable a change. The building now to be occupied has been thoroughly repaired and made as convenient as possible. It is in a quiet locality, with ample grounds, and in every way admirably adapted to the purposes to which it is to be hereafter devoted. The Children's Home is an honor to our city and especially to the noble ladies who have labored so industriously and so judiciously in bringing the enterprise to its present prosperity. Those who have so generously contributed to its funds have the satisfaction of knowing that their benefactions have not failed of the purpose for which they were intended, but have gone directly to the support and comfort of such as were helpless and friendless.

APPOINTMENTS.—It will be seen by the appointments of the Providence conference that Rev. A. N. Bedfish is stationed at the Thames street Methodist Episcopal Church for the ensuing year. Mr. Bedfish is an able and popular clergyman whose ministry has been uniformly successful and we welcome him to our city. Rev. Dr. Upham goes to Fairhaven and Rev. D. A. Wheldon to Bristol, one of the best churches in the conference. The Marlboro street church is left to be supplied by an arrangement not yet complete.

The Rev. M. J. Talbot is placed in charge of the Church in Pawtucket. Rev. E. A. Lyon formerly of this city goes to New Bedford as pastor of the Allen street church.

TO THE POLLS.—Our State ought to speak an encouraging word to her sister Commonwealth to-day. This she can do by giving the gallant Burnside an increased majority over last year. It isn't enough that he is sure to be elected. In these times we want the people's voice speaking loudly and emphatically in favor of loyalty and the Union. Every Republican vote given in Rhode Island to-day strengthens that cause. Every one withheld through neglect or indifference weakens it. Let every Republican who has not already voted be sure and do so at once.

THE THEATRE.—The Boston Theatre company appears at the Opera House this evening with Mr. Joseph Proctor in his famous character of Jibbenainosay in the drama of "Nick of the Wood." The newspapers of other towns all speak very highly of this play and of the manner in which it is rendered by these parties.

AUCTION SALE.—It is expected that the Moravian Chapel and dwelling house on Church street will be sold at auction to-morrow at 12½ o'clock. The building is to be removed for the new Trinity school house.

The Annual Meeting of the Association for the Aid of the Aged will be held at the house of Mrs. Geo. Bowen, No 17 Pelham St., Thursday, April 2d at 3 o'clock P. M.

DESERTER ARRESTED.—A squad of Soldiers marched a deserter through the city this morning on the way to Fort Adams. He was embarked from Kinsley's wharf in a sail boat and doubtless arrived at his destination in safety.

LITERARY NOTICES.

BLACKWOODS MAGAZINE for March contains articles on the Church in the Army and Navy—Linda Tressel Part VI.—The Temporal Power of the Papacy—A Fenian Alarm—The National Character of the Old English Universities—Letters from a Staff Officer with the Abyssinian Expedition, and Opposition Tactics.

EVERY SATURDAY contains the story of Foul Play and as usual is full of good reading matter.

THE BROWNTOWNS by Mrs. Oliphant, is a charming story that has attracted a good deal of attention. It was first published in Little's Living Age and appears now in a neat pamphlet. Little & Gay, Boston. Price 37 cents.

OUR SCHOOLDAY VISITOR for April is well filled with prose and poetry of an attractive character. J. W. Daughaday and Co. Phil'a.

RECEIPT FOR MAKING TATTERS.—Take a handful of weed called Rocabout, the same quantity of root called Niabletongue, a sprig of the herb called Backbite, (either before or after dogs days,) a tea-spoonful of Don't-you tell-it, and six drachms of Malice a few drops of Envy—which can be purchased in any quantity at the shops of Miss Tabitha Tea table and Miss Nancy Nightwalker. Stir them well together and simmer them for half an hour over the fire of discontent kindled with a little Jealousy—then strain it through the rag of Misconstruction and hang it upon a skein of street yarn, shake it occasionally, for a few days, and it will be fit for use. Let a few drops be taken before walking out, and the subject will be enabled to speak all manner of evil and that continually.

A NOVEL BEQUEST.—Rev. John A. Collin the Catholic priest of Marlboro', asks that town to refund to him the sum of five hundred and twenty-five dollars, which he alleges was the expense to him of contesting his right to act upon the town school committee a year or more ago. The facts in the case are stated to be these: Rev. Mr. Collin was chosen a member of the school committee, but the legality of his election was denied on the ground that the polls were kept open after sunset.—Another town meeting was held and another man was chosen upon the committee. Mr. Collin appealed to the Supreme Court, and received a decision in his favor. He now asks the town to pay the sum as above stated *Fall River News.*

NEW BEDFORD.—Rev. Mr. Moulton, pastor of the North Christian Church, was given six months' leave of absence, without deduction from his salary, at a business meeting of the church last evening. He has recovered so as to sit up considerably.

Providence Conference of the Methodist Episcopal Church.

WEDNESDAY, March 30.

The devotional exercises this morning were by the Rev. John Hewson.

F. A. Crafts G. W. Hamlin were continued supernumeraries without an appointment.

The following gentlemen were elected Trustees of the Seminary at East Greenwich. James Davis of Pawtucket, P. M. Stone, D. N. Knight and Rev. J. A. Dean of Providence and L. D. Davis of Newport.

The committee on conference relations reported in favor of making a Connecticut conference, and also that Rhode Island and that part of Massachusetts now in this conference be united with the new New England Conference. Adopted.

The committee on Lay Delegation reported; and it was voted that, with the general conference of 1868, we approve the principle of lay representation, and shall welcome its incorporation into our ecclesiastical system whenever it shall appear that a majority of our people desire it, and a method of doing it, without risking the fundamental principle of our economy, shall be devised.

The annual report of the book concern at New York, exhibits the following facts: Real estate $111,000; stock $300,000; profits $62,000; Christian Advocates published 27,800; Sunday School Advocates, 230,500; Good News, 19,000; Teacher's Journal, 20,000. The entire interests of this concern were represented as highly prosperous, and its business constantly increasing.

It was voted that the Conference hold its next session with the First Church in Fall River.

Committee on Church Extension Society reported, recommending that three-fourths of the monies raised for this purpose be appropriated to churches within our own bounds; also, that $2,000 are needed the coming year, which amount be apportioned as follows: Providence District $1,000; New London and Sandwich Districts $500 each, and that the amount be apportioned by the several presiding Elders to the churches in their several districts, and that fifty per cent of the receipts for this object be appropriated for the use of Trinity Church, Providence.

Rev. P. Hawkes, who a few years since withdrew from the Conference applied for the restoration of his credentials. The application was granted. He was also received as a probationer in the Conference.

Rev. J. B. Husted presented a resolution of thanks to the railroad companies which reduced their fares for those preachers passing over their roads to and from Conference.

Dr. Wise presented the following resolution which was adopted unanimously by a rising vote:

WHEREAS, we have learned that on the decease of our late fellow laborer, the Rev. G. W. Bridge, at Edgartown, his church and congregation, with commendable promptitude, assumed the payment of all the expenses of the funeral, paid his salary to his widow to the close of the conference year, and gave her other gifts amounting in all to eight hundred dollars; therefore

Resolved, That in this generous action of the church at Edgartown, we recognize a beautiful exemplification of that pure and undefiled religion which visits the widow and fatherless in their affliction, and of that tender and practical sympathy of the kind for us and our families, which cannot but stimulate our diligence and confidence, stimulate our efforts, and encourage us to persevere in the toils and sacrifices of our itinerant work.

The first disciplinary question was taken up—"Who are admitted on trial?" Otis E. Thayer, George D. Stoddard, Augustus W. Mills, Emory J. Haynes, Ensign McChesney, Augustus W. Kingsley.

The committee on education reported in behalf of the Boston Theological Seminary, Wesleyan University, and East Greenwich Seminary. All of which were favorably represented.

Visiting committees—Theological Seminary, Rev. D. H. Ela and Hon. Geo. F. Davitt. University, Rev. D. A. Wheldon and Hon. W. B. Lawton. Greenwich Seminary, I. G. Bidwell, H. W. Cheant, L. W. Book, G. L. Westgate, J. F. Benton, and E. S. Stanley.

To preach the Missionary sermon, D. A. Wheldon.

After receiving the appointments the conference went to the pilgrims' Supper provided by the citizens. Music by the Brass Band was discovered to us. Words of Welcome were given by J. W. Davis, Esq., and were responded to by Rev. M. J. Talbot. M. Stone, M. D., presided on the occasion and in a very happy and poetical style presented his speech and toast, to all of which there were the most felicitous responses. The Supper was what its name intimates, made up of cream, oyster and oysters in different styles, with all "the fixings." All perfectly satisfactory, but the intellectual feast of wit, pun, scholarship eloquence and humor was extremely rich. All agree in saying that this has been one of the most enjoyable conferences ever granted to this clerical body and the people who have entertained them. It has "paid" to attend and the people have done their best to tempt us to come again. We believe what their pastor said, that, if possible "they would have moved their houses to accommodate us better.

A FIENDISH attempt was made on Saturday evening to throw the Newton Lower Falls train from the track on the bridge over the back bay basin, by placing upon one of the rails a stone weighing 130 pounds which had been taken from the abutment. The engine removed the stone happily without serious wreck.

THE VALUE OF SOUTHERN LANDS.—The Commissioner of Agriculture has made a report on the value of lands in the various States of the South. In Virginia the average value of lands is twenty-seven per cent. less than it was in 1860. In North Carolina lands have fallen, in the same time, fifty fifty per cent.; in South Carolina sixty per cent. In fifty of the best counties of Georgia land is worth less than one-third its value before the war. In Florida the value of land is merely nominal. Alabama lands have depreciated sixty per cent. In Louisiana much valuable land is idle, but the decrease in price is reported at twenty per cent. Mississippi has suffered less than some other States, and Texas comparatively little; but the general depreciation of land value in the South is a melancholy proof of the evils of civil war.

HAVE YOU HOT SAM? One cold, blustering winter evening, a horseman drew up to a tavern kept by a militia colonel, and asked if he could have accommodation for the night. A half grown lad answered in the affirmative and ushered him into the sitting room where the great wood fire, of fresh, gave him a welcome. After supper, the landlord made his appearance, for the first time. He was hearty, and hale, and very many Boniface need be, but he was bent and crippled in his gait. He explained by saying he had taken cold which had settled in his back.

"I don't mind the pain so much," he continued, "but it is so inconvenient. I have been recommended to try a *poor man's plaster*, and if you will excuse me I will have it put on. Sam! Samuel! Samuel Mellitus!"

"Here, father," said the young Lopeful, hastily swallowing a huge piece of mince pie which he had been quietly enjoying.

"Here, Sam, my boy, heat this plaster for me and put it on my back. Heat it hot, Sam."

Saying which he handed the plaster to his son, and seating himself astride his chair with his back to the fire, threw his suspenders back and his shirt over his head.

"Now, Sam," said the colonel, "if the poor man's plaster is hot, you may put it on; but you may wait a little, I'm afraid it's not hot enough. Heat it hot, Sam, heat it hot. Can you tell, turning to the traveller, who was seated in the corner, "why this is called a poor man's plaster—sometimes the poor man's friend? Give it up?" laughing to himself—because it "sticketh closer than a brother."

Poor Sam who had been watching his chance to speak without interrupting his father now ventured to say:

"I guess it's hot enough now father."

"What do you know about it?" said the old man, testily. "I say heat it hot, Sam heat it hot."

Sam whose face was heated a red heat, had held the plaster till it had run and dripped down on the hearth, and made no reply.

Sam armed with the plaster, approached him and did clap it on. The old man gave one yell, like a wild Indian, and jumped clear over the back of the chair, kicking his old fashion breeches off his feet, and dancing with pain. The traveller laughed till he cried, and the more mine host roared the more he laughed.—When the first agony was over the colonel began to swear, and our traveler thought it would be prudent for him to retire, lest he should share the wrath with Sam, who he observed was making good his distance.

The next morning, when leaving, he handed the colonel five dollars, saying with a twinkle of the eye:

"I don't want any change. It was cheap at that." After he was seated upon his horse, and out of range he called back;

"Heat it hot, Sam, heat it hot."

Among the many restoratives which nature has supplied to relieve the afflictions of humanity, there is no more favorite one for a certain class of diseases than the "medicinal gum" of the Wild Cherry Tree; but however valuable it is, its power to heal, to soothe, to relieve and to cure, is enhanced ten-fold by scientific and judicious combination with other ingredients, in themselves of equal worth. This happy mingling exists to a remarkable degree in

Dr. Wistar's Balsam of Wild Cherry,

whose value in curing *Coughs, Colds, Bronchitis, Whooping Cough, Croup, Asthma, Pulmonary Affections and Incipient Consumption* is inestimable.

Strong Testimony.

From BENJAMIN WHITTLE, Esq., Depot Master at South Boylston, Mass.

"In the spring of 1863 I was most severely afflicted with a hard, dry cough, with its usual accompaniments of night sweats, completely prostrating my nervous system, and producing such a debilitated state of health that, after trying medical advice for months, I had given up all hopes of ever recovering, as had also my friends. At this stage of matters I was prevailed upon through the influence of a neighbor to try Wistar's Balsam of Wild Cherry, and, before using two bottles, the effect was almost magical. My cough entirely left me, the night sweats deserted me, hope once more cheered my depressed spirits, and soon I had attained my wonted strength and vigor. Thus has this Balsam, as has often been remarked by persons conversant with the above facts, literally snatched me from the yawning grave—You are at liberty to use this for the benefit of the afflicted."

Prepared by SETH W. FOWLE & SON, 18 Tremont St., Boston, and for sale by Druggists generally.

The best known remedy for

SCROFULA

in all its manifold forms, including *Ulcers, Cancers, Syphilis, Salt Rheum, &c., &c.*, is **Dr. Anders' Iodine Water**, a pure solution of Iodine without a solvent, discovered after many years of scientific research and experiment. For eradicating humors from the system it has no equal.

AMERICAN HOUSE,

BOSTON, MASS.

THE very important and extensive improvements which have recently been made in this popular Hotel, the largest in New England, enable the proprietors to offer to Families, and the Travelling Public, accommodations and conveniences superior to any other Hotel in the city. During the past summer additions have been made of numerous suites of apartments, with bathing rooms, water closets, &c., attached; one of Tufts' magnificent passenger elevators, the best ever constructed conveys guests to the upper story of the house in one minute; the entire house has been newly and richly carpeted, and the entire house thoroughly replenished and refurnished, which, it is hoped, will be found in all its appointments, equal to any hotel in the country.

Alpine Bitters.

THE ALPINE BITTERS, imported exclusively from Switzerland, is made from Roots and Herbs, harmless in themselves, but marvelous in their effects on a debilitated system. Their recuperative qualities are unrivalled, and are especially efficacious in all cases of Female Debility, arising from any cause whatsoever; also for Dyspepsia, Indigestion, Headache, Nervousness, Loss of Appetite, and as a positive preventive of Chills and Fever.

The ALPINE BITTERS have a soothing and invigorating influence upon the system, especially upon the digestive organs, and is highly recommended to ladies and even children in delicate health, and to all who are averse to taking wine, poisonous whiskeys and other stimulants.

The continually increasing demand for the universal popular European Tonic and Anti-Dyspeptic Extract, has induced the undersigned to make such arrangements abroad as will enable them constantly to supply all orders with which they may hereafter be favored.

PRANG'S AMERICAN CHROMOS,
In Oil and Water Colors.

PRANG'S AMERICAN CHROMOS are fac-similes reproductions of oil and water color paintings; so faithfully and skillfully done that it requires the experience of an expert to detect the difference between them and the originals.

For every purpose of decoration—for parlors, sitting-rooms, drawing-rooms, churches, or chambers—nothing so exquisitely beautiful as these Chromos can be obtained for the same amount of money. No other ornaments of the same cost are so admirably calculated to adorn a home; to cultivate a love for Art among the people at large; to brighten up the dwellings of every class of our citizens; and to teach the rising generation, by their silent yet telling influence, to love the beautiful in Art and in Nature.—Hitherto, Art has been aristocratic in its associations—none but the wealthy classes could afford to buy the works of Art; but chromo-lithography has changed all that, and brought exquisite pictures within the reach of every family. It is doing for Art what the printing press did for Literature. Let no family, henceforth, be without a few classical books, and one or two masterly paintings. Both should be regarded as indispensable to complete a home.

☞ Ask for them at the Art Stores and Book Stores.

☞ Send for "Prang's Chromos: a Journal of Popular Art," and see what we have done and are doing to popularize Art. It will be sent to you free. Address L. PRANG & CO., Boston. apr1

TELEGRAMS.

TERRIBLE ACCIDENT IN A COAL MINE.

SCRANTON, Pa., March 31.—By the breaking of a chain connected with the hoisting machinery of the Diamond Coal Mines, near this city, this morning, the platform, containing seventeen men, was precipitated to the bottom of the shaft, one hundred and eighty-five feet. Eleven were instantly killed, one has since died, and two more, it is thought, cannot live. They leave eleven widows and twenty eight orphans.

ANOTHER FENIAN SCARE.

MONTREAL, March 30.—We are in the midst of another Fenian scare. Private orders have been issued to all regiments in garrison to have ammunition and two days rations served out and made ready to march at a moment's notice. The artillery are under orders. To-day a quantity of "Greek fire" and phosphorus' stolen from Mr. Lyman, druggist, was found stored in Griffintown, the most Irish portion of the city. Considerable excitement prevails in the city. Volunteers in various parts of the country and regulars have received orders to prepare for duty if called out. Government accounts for these precautions by statements that have been received and private reports of arms and material of war stored on the frontier near Buffalo and St. Albans. Private dispatches received to day say all this is only a strategic move to enable Government to carry a military bill of unusual severity amounting to conscription during excitement caused by groundless agitation.

—o—

THE MASSACHUSETTS STATE CONSTABULARY.

BOSTON, March 31.—The Massachusetts Senate, to-day, failed to pass the bill abolishing the State constabulary over the Governor's veto, by a vote of 19 to 15, not the necessary two-thirds.

Washington Evening News.

New York, March 31. Washington specials say Mr. Churchill's bill of succession in regard to the Presidency will unboubtedly pass.

The dispatch about the massacre in Creta is said to be an unmitigated fabrication.

Mr. Stanbery will open for the President, and Mr. Evarts will sum up the case.

No one now believes that the impeachment trial will last fifteen days, and there is no doubt that Andrew Johnson will be removed before the first of May. The President's counsel have asked for their first subpena for a witness and filled one up for Gen. Rousseau, now in Washington Territory, and another for Gen. Steadman, at New Orleans. But if they expect to get delay on that score they will be disappointed, for the Managers will demand that they state, what they agree to admit that if these men were here, they would so answer. The Managers will not admit their statements as facts, but merely that they would swear to certain versions of the President's speeches.

There is barely a quorum of the House in Washington, and it is not likely much business will be done during the trial.

Gen. Hancock has asked for two days more time before taking command of the Atlantic Department, but the President has refused to grant it. Gen. Hancock has stated that he should not accept the command if it was expected that he would become involved in political difficulties, or if any unusual duties were expected of him.

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)

78 State Street, Opposite Kilby Street Boston.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of Inventions.

During eight months the subscriber, in the course of his large practice, made on twice rejected applications, SEVEN APPEALS! every one of which was decided in his favor by the Commissioner of Patents.

R. H. EDDY.

Testimonials.

"I regard R. Eddy as one of the most capable and successful practitioners, with whom I have had official intercourse. CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. Such uninterrupted proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the out faithful attention bestowed on their cases, and at very reasonable charges. $500 WILL BE FORFEITED BY DR. L. DIX if failing to cure in less time than any other physician, more effectually and permanently, with less restraint from occupation or fear of exposure to all or any other, with safe and pleasant medicines.

SELF-ABUSE AND SOLITARY HABITS,
Their effects and consequences;
SPECIAL AILMENTS AND SITUATIONS
Incident to Married and Single Ladies
SECRET AND DELICATE DISORDERS;
Mercurial Affections, Eruptions and all Diseases of the Skin; Ulcers of the Nose, Tonsils and Body; Pimples on the Face; Swellings of the Joints; Nervousness; Constitutional and other Weaknesses in Youth, and the more advanced, at all ages, of
BOTH SEXES, SINGLE OR MARRIED.

DR. L. DIX'S
PRIVATE MEDICAL OFFICE,
No. 21 Endicott Street, Boston, Mass.,

is so arranged that patients never see or hear each other. Recollect the only entrance to his Office is No. 21, having no connection with his residence, consequently no family interruption, so that on no account can any person hesitate applying at his office.

DR. DIX

boldly asserts (and it cannot be contradicted, except by Quacks, who will do or say anything, even perjure themselves, to impose upon patients) that he

is the only regular graduate physician advertising in Boston.

SIXTEEN YEARS

engaged in treatment of Special Diseases, a fact so well known to many Clergymen, Publishers, Merchants, Hotel Proprietors, &c., that he is much recommended, and particularly to

Strangers and Travelers.

To avoid and escape Imposition of Foreign and Native Quacks, more numerous in Boston than other large cities.

DR. L. DIX

proudly refers to Professors and respectable Physicians—many of whom consult him in critical cases, because of his acknowledged skill and reputation, attained through so long experience, practice and observation.

AFFLICTED AND UNFORTUNATE!

be not robbed and add to your sufferings by being deceived by the lying boasts, or pretentious, false promises and pretensions of

FOREIGN AND NATIVE QUACKS,

who know little of the nature and character of Special Diseases, and less as to their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, have obtained, unknown to not only assuming and advertising in names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by

QUACK NOSTRUM MAKERS,

through false certificates and references, and recommendations of their medicines by the dead, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical books much that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics, &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than it cures," and those not killed, constitutionally injured for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon Mercury, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, equally ignorant, adds to his so-called Extracts, Specifics, and Bitters, &c., both relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, as usual nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years, until believed or cured, if possible, by competent physicians.

BUT ALL QUACKS ARE NOT IGNORANT.

Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, they are to be among them who will perjure themselves, contradicting giving mercury to their patients or that it is contained in their Nostrums, so that the "dollar" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is thus that many are deceived also, and uselessly spend large amounts for experiments with quackery.

TO THE LADIES.—The celebrated DR. L. DIX particularly invites all who need a Medical or Surgical adviser, to call at his Rooms, No. 21 Endicott Street, Boston, Mass., which they will find arranged for their special accommodation.

Dr. DIX having devoted over twenty years to this particular branch of the treatment of all diseases peculiar to females, it is now conceded by all (both in this country and in Europe) that he excels all other known practitioners in the safe, speedy and effectual treatment of all female complaints.

His medicines are prepared with the express purpose of removing all diseases, such as debility, weakness, unnatural suppressions, enlargements of the womb, also all discharges which flow from a morbid state of the blood. The Doctor is now fully prepared to treat in his peculiar style, both medically and surgically, all diseases of the female sex, and they are respectfully invited to call at

THE MODEL COOK!

Airtight Stove with Two Ovens

Supersedes all others in

Economy, Durability, Perfection of Finish, Capacity, Beauty of Design and Convenience.

Can be used with Water Pipes attached to Reservoirs, or with movable Reservoirs, has a

Ventilated Roasting Oven,

Which can be used separately or in connection with the BAKING OVEN, by removing a single plate, thus giving one of the LARGEST OVENS ever constructed.

We respectfully invite those who are not satisfied with their present arrangements for COOKING, to make careful examination of this STOVE, honestly believing that it combines the elements of simplicity, utility, and economy, more perfectly than any apparatus heretofore introduced. For sale by

Peerless Cooking Stove.

HEAR what the Boston Journal says of this superior article:

Among the peculiar merits claimed for this stove is the complete ventilation and even temperature of the oven, making it a roasting oven and a baking oven, which is secured by a peculiarly constructed air-chamber, which heats the air as it passes down behind the fire pot and into the oven, causing the meats to bake or roast perfectly and evenly, a great desideratum with a careful housewife; the perfect control which can be kept over the fire, and its cleanliness. This stove works equally well with coal or wood. These stoves are of different sizes, and are made plain or with an extension top, the latter being made with a large reservoir for hot water on the top and a curaling closet underneath. Those of our readers who would like to keep up with the times would do well to call and examine this "Peerless Stove." Sole agent in Newport,

Oxygenized Air,

A CURE FOR

CATARRH

AND DISEASES OF THE THROAT AND LUNGS,

Applied by

DR. C. L. BLOOD,

No. 9 Montgomery Place,

BOSTON, MASS.

CHRONIC CATARRH.

Why entertain this loathsome disease when relief can be obtained? We meet those every day who are suffering from Catarrh to such an extent, that the Air Passages in the head are in a partly decomposed condition,—the nose and throat filled with such a mass of corrupt matter that they are objects of disgust to themselves, and of pity to those with whom they associate.

Chronic Catarrh usually affects the head, throat and bronchial tubes. It is invariably caused by humoral or inflammatory blood, by which the mucous membrane is made sore or inflamed, producing a copious effusion of viscid matter. If it be produced by Scrofula in the blood it is almost certain to end in Consumption, unless speedily cured, because it is impossible to entirely prevent the matter from running down the Bronchial tubes into the air vesicles, and such is the excoriating, or scalding property of the matter, its contact with the delicate linings of the air-cells at once causes irritation, and invites the humoral properties of the blood to deposit therein Tubercles and Ulcers.

Catarrh almost always attends Consumption, and frequently leads to it.

In Oxygenized Air we have a positive cure for this disease. The remedy is taken by inhalation,—breathed directly into the lungs, and through them carried into the blood; thus as soon as the blood will carry it, it reaches all parts of the system, decomposing the impure matter in the blood and expelling it through the pores, and through the natural channels from the system. Thus you will see that the cause of the disease is removed, and the disease itself must follow.

In the same manner we treat and radically cure Bronchitis and Consumption. Let no one suffering from those diseases despair of relief. If you are too far away to visit our office and see us personally, write a description of your symptoms, and forward to the address below.

Send for our circular, which gives a description of these diseases.

Out of the many thousands of testimonials we will publish the following:

DR. C. L. BLOOD,—

DEAR SIR:—I desire to give you my testimony in regard to the value of your scientific system of treating Catarrh and diseases of the Respiratory organs. I have used your remedy, "Oxygenized Air," in my practice for the last year with complete success. I have cured the worst forms of Catarrh, and a majority of the cases of Bronchitis and Consumption in their advanced stages. I unqualifiedly pronounce "Oxygenized Air" the greatest boon ever yet conferred upon our suffering race, and hope the day is not far distant when every intelligent physician will adopt your system in the treatment of all forms of chronic affections.

Fraternally yours,
L. M. LEE, M. D.
No. 122 Westminster Street, Providence.

DR. C. L. BLOOD,—

MY DEAR SIR:—I have tested your remedy, "Oxygenized Air" in advanced stages of Catarrh, Bronchitis and Consumption, and the results have been, in the highest sense, satisfactory; so positive am I of its wonderful power to arrest the progress of the above named diseases, that I can conscientiously advise all who may be suffering from them to place themselves under the treatment at once.

Respectfully yours,
Rev. R. TOMLINSON.

PRICE ADVANCED—PAR & INTEREST

THE

Central Pacific Railroad

THE FIRST AND PRINCIPAL PORTION OF THE

National Trunk Line Across the Continent

is being rapidly carried forward by an unprecedented working force; and it is reasonably certain that the CONTINUOUS OVERLAND RAILROAD CONNECTION FROM NEW YORK TO SAN FRANCISCO WILL BE MADE IN 1869.

The United States Government furnishes, upon a subordinate and contingent lien, half the means for constructing the Main Stem Line; and besides an absolute grant of 12,800 acres of valuable public lands per mile, the Central Pacific Railroad Company have received from California subsidies, donations and concessions worth more than $9,000,000. The available resources of this Company are therefore abundant for the purpose, amounting to $71,000,000 on the first 570 miles of the line, including Loans secured by a First Mortgage upon the whole property, to the amount of only $16,000 per mile.

The results already attained, although under comparatively unfavorable circumstances, afford a sound and ample ground for believing the CENTRAL PACIFIC to be the

Most Favored, Productive, and Valuable Railroad Enterprise in the Country.

In consequence of the large and rapidly increasing demand, the price of these Bonds has been advanced, and the Company are now offering for sale, a limited amount of their

First Mortgage Six Per Cent. Bonds,

Principal and Interest Payable in Gold Coin,

in sums of $1,000 each, at par and accrued interest from January 1st, in currency.

These Bonds, it is believed, possess the elements of *safety, reliability and profit*, in a greater degree, than any other class of Corporate Securities now offered, and are therefore very desirable for steady investments of capital.

Investors will bear in mind the following advantages:

I. They are the first mortgage on one of the most valuable and productive lines of railroad in the world.

II. The actual earnings from local business in 1867 were more than four times the annual interest requirements.

III. The hard part of the work is now done, and the prospects of rapid completion are favorable.

IV. The Company have liberal subsidies, which enable them to prosecute the work with great vigor.

V. The management has been exceedingly prudent and frugal.

VI. There is already a large and growing settlement on the completed and graded line.

VII. The land-grants promise to be of immense value, 37,000 acres having been already sold.

VIII. Both principal and interest are explicitly made payable in gold coin.

IX. Both the aggregate amount of issue and their standing in Europe will insure for them continued activity and a high rank among standard securities.

At this time they yield nearly

NINE PER CENT. UPON THE INVESTMENT.

Holders of Government Securities have an opportunity of exchanging them for Central Pacific Bonds, bearing an equal rate of interest, with the principal also fully secured, and of realizing a profit of from ten to fifteen per cent. in addition.

Orders sent with the funds through responsible Banks or Express Companies will receive prompt attention. Bonds sent by return Express, to any address in the United States, at our cost. Information, Descriptive Pamphlets, Maps, &c., furnished on application at the office of the Railroad Company,

It has been awarded the

HIGHEST PREMIUM AT THE PARIS EXPOSITION.

Also, State and County Fairs throughout the United States.

It knits Hosiery of all kinds, forming the heel and narrowing the toe. Knits up its own work, widens and narrows by varying the number of loops the same as in hand knitting. The loops being the same as made by hand, the fabric is equally durable.

It knits the fabric either tubular or flat, single, double, or ribbed, and in any desired shape, thus producing every variety of Staple and Fancy Knit Goods.

The extent and variety of its manufactures are only limited by the ingenuity of the person who tends it; while a child can operate it on plain knitting.

No. 15 Broad Street,

MAKE the following propositions: They will put up at the market price one hundred pound papers of English Breakfast, Oolong and Hyson Teas, such as they are now retailing, for one dollar per pound, and deliver the same on the 25th of September at the residences of purchasers. In every tenth pound will be enclosed a one dollar greenback, so that the purchaser will get his tea for nothing. By this arrangement no one will pay above the regular price, so that there is no possible loss. As will be seen, the tea is sold on the average at a deduction of ten per cents, or at our

WHOLESALE PRICE,

which is simply what is proposed to be done.

We are only enabled to do this by our connection with an extensive wholesale tea-store in New York, from which we purchase at the lowest rates.

EVERY POUND WARRANTED.

If the tea when tried is not satisfactory it may be returned in exchange for any other kind or quality in the store. The whole thing is to be done on perfectly honorable principles, and is no catch-penny affair.

Orders may be handed in at once.

If the whole number of packages are not sold at the day of delivery the proportionate number will be disposed of according to the above terms.

There are not a cheap tea provided for the purpose, but a regular standard article. Other teas may hereafter be sold in the same way. Now is the time to send in your orders.
